

Price List

Computer Threat Removal \$50 (in shop)	Our Basic Computer cleanup package. We will remove any spyware, adware, standard virus removal. This will take care of most common issues and slowness. House call prices may vary.
Computer cleaning \$40(in shop only)	Your computer relies on adequate cooling to maintain internal components within safe operating temperature. Several fans that pull in air to keep the vital parts cool. Dust in the air is deposited on the circuit boards, heat sinks, and inside the power supply. The dust prevents cooling air from reaching the parts which can eventually damage them from overheating.
Hard Drive replacement \$75-\$150	A new hard drive can be larger in capacity and faster too. If your hard drive is making odd noises or you experience data errors, it may be on the verge of failing totally. We can determine which one works with your computer and then give you a recommendation on size. Price will depend on size of drive.
Diagnostic Testing \$45/Hour	Computer not running right but you just can't determine why? We will troubleshoot your system and determine what route needs to be taken to correct the problems.

Note: This is just an overview of our prices. Other options/packages available.

Some prices may vary. Additional charges apply for all house calls.
